# Who We Are?

We are a group of skilled professionals working together as a team. SamV Illustrations was launched on 2<sup>nd</sup> Nov 2017, with a vision to become a one-stop for all kinds of design & development needs in the complex Indian IT market.

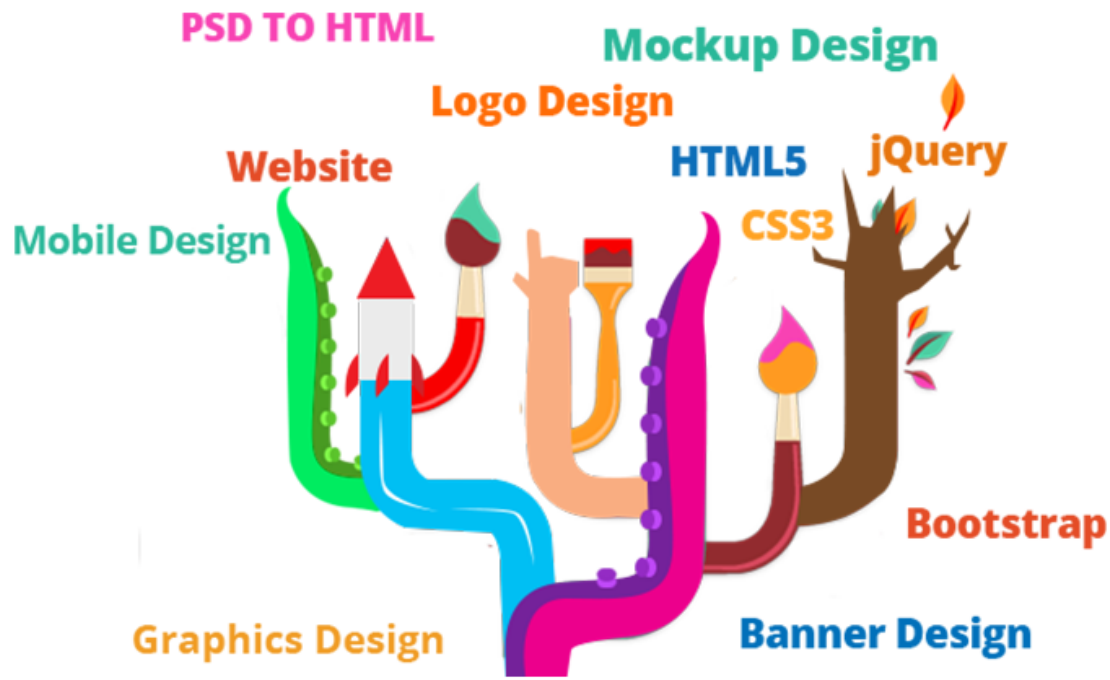

We work in the niche market, have the ability to handle any kind of website irrespective of a type of business. Here we look forward to meeting all demands of customers with timely delivery.

Apart from anything, our main concern is to maintain credibility of work.

# Our Expertise

Our service offerings not only provide web/App Development services but also Design consultation and Technology based industry specific solutions which have been a huge success with customers.

A hand holding an iPhone is shown, with the screen displaying various app icons. The entire image is covered with a semi-transparent purple overlay. In the center, the words 'APP' and 'PROJECTS' are written in a large, white, bold, sans-serif font, stacked vertically. The background is blurred, showing what appears to be a desk with some papers or books.

The background image shows a laptop screen with PHP code for a WordPress gallery. The code includes a loop to generate gallery items, using functions like `wp_get_attachment_image`, `esc_attr`, and `wp_get_attachment_url`. The text "WEBSITE PROJECTS" is overlaid in large, bold, white capital letters.
